About This Game

The abandoned world in those clouds is full of weird and wonderful dangers. Discover friendly robots, discover murderous robots, grappling-hook onto enemy airships, fight giant bosses, and swim inside huge floating jellyfish.

Find new weapons and powers for your robot suit as you explore. You don't *need* them to win, but they're definitely worth finding!

Launch shockwaves through terrain that fling dozens of enemies into the air. Block homing missiles and cross gaps with hex tiles you've created out of thin air. Destroy your enemies with a good old fashioned death beam. Your weapons and ammo can be customized at any point, after you've found them! Charge shot + combust ammo? Homing shot + freeze ammo? Delicious!

Here's the kind of stuff you'll do while playing Cloudbase Prime:

- Jump
- Shoot
- Jump while shooting
- Blow up mech walkers leg by leg and then watch their stupid heads roll off a cliff and fall into the clouds below
- Raise/lower terrain to open paths, launch enemies, launch yourself, or stop a homing missile from hitting you in the face
- Upgrade your robot suit with new weapons, powers, and ammo to use in fast, bouncy combat
- Slow down time to select from your powers and weapons at a leisurely pace via the strategy HUD
- Launch yourself with terrain to fly high and charge your boost engines
- Discover why robots are mutating and acting all evil via fully animated and voiced in-game story bits
- Save lots of grinning fixbots
- Blow up some real big bosses
- Explore varied levels, plumbing the weird depths of a gas giant's robotic wilderness. Climb huge robotic trees, ride a jet dragon, swim inside giant floating jellyfish, and find lost cities in the clouds!

is great. The Best Indie First Person Game On Steam. intruiging game. Cool game made by a cool guy! The dragon level is amazing! Highfive for the Cheesehound rebelcow!. I'm wvway to tired to write a real review, but if you are looking for something fun, inventive and unique, then give this game a shot.

You also get to fling enemies in the air and shoot at them while they tumble back to earth.. It's a 'platformer' in the sense that you control literal platforms to launch yourself (or enemies!) around. Buy if you like hilarious dialog and unique gameplay.

It also works surprisingly well with a Steam Controller, to the point where it's my prefered method of playing this game.
